A Modern Method

Yet it is, and the improvements have come within the

last few years, too. WALK-OVER shoes and WALK-OVER shoe men

are responsible for them. Time was when you went into a shoe store, told the size and width you wanted, got it and went out.

Many stores employ such methods now, but not WALK-OVER stores. In the WALK-OVER store your foot is carefully

measured and the shoe you ought to wear is shown you on your foot. Not until your foot and the WALK-OVER shoe you ought to wear meet will you get fullest measure of shoe satisfaction.
